

Jorge González Conde

 jorgegoco70@gmail.com |  LinkedIn |  Portfolio |  GitHub |  Website

Professional Summary

Prompt Engineering & AI Solutions Developer with specialized expertise in designing, deploying, and optimizing production-ready generative AI systems. Proven track record developing AI agents and NLP solutions using advanced language models (GPT, Claude) with 2+ years of intensive hands-on experience in generative AI development. Expert in crafting effective prompts for LLM optimization, demonstrated through production deployment of multi-agent AI systems and custom prompt engineering frameworks (CLAUDE.md). Strong foundation in Python, FastAPI, and end-to-end AI solution architecture with extensive academic training in Machine Learning (Stanford, MIT, DeepLearning.AI). Skilled in integrating AI models into production environments through APIs, microservices, and containerized deployments. Experienced collaborating with multidisciplinary teams to deliver intelligent automation solutions and data-driven applications.

Technical Skills

Generative AI & LLMs: OpenAI API (GPT-4, GPT-3.5), Anthropic Claude API, Prompt Engineering, AI Agent Development, LangChain, RAG (Retrieval-Augmented Generation), Hugging Face Transformers

NLP & Machine Learning: Natural Language Processing, Transformer Architectures, TensorFlow, Keras, PyTorch, Deep Learning, Neural Networks, Computer Vision, AI for Medicine

Programming & Frameworks: Python, FastAPI, Node.js, TypeScript, JavaScript, Ruby on Rails, React, Redux, Next.js, Express

AI Integration & Production: End-to-end AI Solution Development, API Design & Integration, Microservices, Docker, Containerization, VPS Deployment (Easypanel, Contabo), Production Environment Integration

Databases & Data Engineering: PostgreSQL, MongoDB, SQL Server, Redis, MySQL, Vector Databases, Embeddings, ETL Processes

Development Tools & Methodologies: Git, GitHub, Claude Code, TDD, Jest, pytest, Agile, Scrum, CI/CD

Data Science & Analytics: Data Science, Data Analytics, Statistics, R Programming, Data Visualization (matplotlib), GNU Octave

Cloud & Infrastructure: AWS (S3, Lambda), Fly.io, Linux, VPS Management

Work Experience

Desarrollador Python Full Stack & AI Solutions | Freelance

Remote | Septiembre 2022 – Presente

Production AI Agent Platform Development:

- Designed and deployed **production-ready generative AI systems** integrating multiple LLM providers (OpenAI GPT-4, Anthropic Claude) with FastAPI backends deployed on VPS infrastructure
- Developed **miagentuca.es platform** featuring three specialized AI agents for SME automation: accounting assistant (gestoria), purchasing agent (compras), and explainer bot—demonstrating end-to-end AI solution development from concept to production
- Created **custom prompt engineering framework (CLAUDE.md)** to optimize developer productivity and LLM response quality in software projects, showcasing advanced prompt design capabilities
- Implemented **multi-agent AI research system** with collaborative agent architecture (planner, researcher, writer, editor) using LangChain, demonstrating complex agentic workflow orchestration
- Developed **AI-powered job application generator** using Claude LLM with intelligent text analysis, auto language detection, and PDF export—showcasing NLP capabilities and practical AI integration
- Built **natural language-to-SQL conversion system** using OpenAI API with reflection patterns for self-correction and database integration

Technical Implementation & Integration:

- Architected and deployed **RESTful APIs** for AI model integration in production environments using FastAPI with Docker containerization
- Implemented **document extraction solutions** exploring OCR, layout models, and Vision-Language Models (VLM) for intelligent data exploitation
- Developed **production-ready MCP chatbot client** connecting to unlimited MCP-compatible servers with dynamic tool discovery, demonstrating *MN to M+N integration pattern*
- *Managed containerized deployments** on Contabo VPS via Easypanel with custom domains and SSL certificates

Technologies: Python, FastAPI, OpenAI API, Anthropic Claude API, LangChain, RAG, Vector Databases, Docker, PostgreSQL, MongoDB, Redis, OCR, VLM, Hugging Face Transformers

GitHub Projects:

- [miagentuca-demos](#) – Production AI agents with multiple LLM integrations
- [research-agentic-ai](#) – Multi-agent research system with LangChain
- [job_offers](#) – AI-powered CV generator with Claude LLM
- [fitness-tracker](#) – Natural language to SQL with OpenAI API
- [mcp-chatbot-client](#) – Production MCP chatbot client

Full Stack Web Developer | The Ticket Merchant

Remote | Octubre 2023 – Septiembre 2024

- Developed internal web application using **Next.js, Node.js, and SQL Server** integrating APIs and microservices architecture
- Collaborated with multidisciplinary teams to design, implement, and deploy new features in production environments
- Conducted code reviews and provided technical feedback ensuring software quality best practices and team workflow optimization
- Participated in technical troubleshooting and solution development for complex integration challenges

Technologies: Next.js, Node.js, SQL Server, Material UI, REST APIs, Git

Technical Mentor (Volunteer) | Microverse

Remote | Noviembre 2022 – Presente

- Provided technical mentorship to 5+ junior developers with focus on code quality, architecture optimization, and best practices
- Conducted detailed code reviews and architectural guidance, resulting in **15% improvement in project quality and efficiency**
- Achieved **50% increase in task completion rates** and **100% positive team feedback** through collaborative technical leadership
- Mentored developers on maintaining motivation and delivering complex full-stack projects with modern frameworks

Technologies: Ruby on Rails, React, Redux, JavaScript, Python, Git

Production Manager | MAI

Ourense, España | Junio 2002 – Marzo 2017

- Implemented **Six Sigma methodologies** to optimize workflows, achieving **25% productivity increase** and **15% waste reduction**
- Managed **20+ team members** with focus on process automation, quality control, and continuous improvement
- Collaborated with cross-functional teams to coordinate production schedules, inventory management, and supplier negotiations
- Improved safety compliance by **30%** and reduced inventory errors by **20%** through systematic process optimization

Education

Full Stack Web Development Program | Microverse | *Septiembre 2022 – Presente*

1300+ hours intensive training in algorithms, data structures, full-stack development (Ruby, Rails, JavaScript, React, Redux), pair programming, Git workflows

Computer Science, Mathematics & AI/ML Specializations | Coursera, edX, MITx, Stanford, Udemy | *2016 – 2021*

30+ certifications including:

- **Machine Learning** (Stanford University – Andrew Ng)
- **Deep Learning Specialization** (DeepLearning.AI)
- **Natural Language Processing Specialization** (DeepLearning.AI)
- **TensorFlow Developer Specialization** (DeepLearning.AI)
- **Machine Learning with Python** (MITx)
- **Mathematics for Machine Learning** (Imperial College London)
- **AI for Medicine Specialization** (DeepLearning.AI)
- **Computer Vision** (DeepLearning.AI)

Ingeniería Electrónica Industrial y Automática | Universidad de Vigo | *1998 – 2002*

Focus: Electronics, automation, robotics, control systems, microcontrollers, sensors, actuators

Certifications & Specialized Training

Generative AI & NLP:

- Natural Language Processing Specialization (Coursera)
- TensorFlow Developer Specialization (Coursera)
- Deep Learning Specialization (DeepLearning.AI)
- AI for Medicine Specialization (Coursera)

Data Science & Machine Learning:

- Machine Learning (Stanford University)
- Machine Learning with Python (MITx)
- Mathematics for Machine Learning Specialization
- Probability - The Science of Uncertainty and Data (MITx)
- Fundamentals of Statistics (MITx)

Technical Skills Assessments (LinkedIn):

- Python, JavaScript, React.js, Node.js, Ruby on Rails, REST APIs, Git, OOP, Agile Methodologies, Front-End Development, AWS, MongoDB, MySQL, HTML, CSS, C#, Linux

Languages

Spanish: Native

English: Professional Working Proficiency
